Tour inside the Giza Pyramids

Our representative will pick you up from the hotel lobby or anywhere you want in Cairo. Then you will be transferred to the Giza Plateau to start your day tour. Your adventure will begin at the Great Pyramid of [King Khufu](#), the largest of the three pyramids at Giza. You'll be able to enter the pyramid and explore the chambers inside. Next, you'll visit the Pyramid of [King Khafre](#), which is the second largest of the Giza pyramids. You'll also be able to enter this pyramid and explore its chambers. Last, but not least, you'll visit the Pyramid of [King Menkaure](#), the smallest of the three pyramids. You won't be able to enter this pyramid, but you'll be able to get a close-up view of the outside.

After exploring the three main chambers, you'll exit the pyramid tour and have the opportunity to explore the rest of the Giza complex. You'll explore the nearby [Great Sphinx of Giza](#) and [the valley temple of khafre](#). The Sphinx is a massive stone statue of a lion with a human head. It's one of the most famous landmarks in Egypt and the Valley Temple is a funerary temple that was used to prepare the bodies of the Pharaohs for mummification. Finally, you'll enter the Queen's Chamber, which was built for Pharaoh Khufu's wife. This chamber is smaller than the King's Chamber and is believed to be where the queen was buried.

At the end of your tour inside the great Giza Pyramids, our representative will take you back to your hotel or the place you want.
